PROFESSIONAL SUMMARY

I am a Quality Assurance Analysts and Software developer with a good number of years of extensive experience in Software development, Testing and QA implementation for Client, Server and Web Applications.

As a Quality Assurance Engineer, i have tangible experience in QA methodologies, Requirement analysis, writing test plans and test cases based on system requirement specifications. Excellent hands on experience in handling the defects throughout the bug life cycle from detection until resolution. Black box testing, functional testing, Integration testing, Database and Regression testing are some of the testing approaches I frequently use.

As a software developer, i have industrial experience developing enterprise level applications using various technologies and frameworks.

With a track record of hitting goals and exceeding expectation, I am confident, energetic, critical and innovative. I am a team player with strong attention to details ensuring every project is delivered on time and meets it requirements for quality.

CORE COMPETENCIES AND SKILLS

- **Software Engineering**: Requirement analysis, development, deployment and Maintenance.

- **Tools:** Jenkins, GIT, codepen, Docker, Kabana Android Studio, Service desk using Jira, VSCode, Postman, MySql Workbench Swagger, Sublime Text, Heroku, Netlify.
- **Programing Languages**: JavaScript, PHP, Java
- **Frameworks**: Nodejs, Express, mongoose, sequelize, mongoose firebase, materialize, tailwind, bootstrap, Reactjs, React Native.
- **Database**: MSSQL, MySQL, MongoDB, Firestore.
- **Other software packages**: Adobe PhotoShop, Figma, Microsoft Excel, SPSS.

- **Quality Assurance**
  - Agile Project Management
  - Software Functional Testing
  - Business Analysis/ Process Mapping
  - Issue Tracking & Documentation
  - Software Testing
  - Software Development Life Cycle
  - API Testing
  - Regression Testing
  - Automation Tools (Selenium Webdriver).
  - Performance Testing using Apache Jmeter

- Problem solving: deep analysis, raft attention to detail, research and provision of working solutions.
- Good communication and Interpersonal skills.
- Team spirited and result oriented.
- Attention to details.
- Ability to work with minimal supervision.

WORK EXPERIENCE

January 2019 till date

- **MiddleTrust PLC, Nigeria.**
  Fullstack developer/ Software Tester

January 2017 – June 2018

- **etranzact, Victoria Island, Lagos.**

Software Test Analyst/ Quality Assurance.

- Duties / Responsibilities:

• Preparation of test cases based on Functional specifications. Execution of test cases, bug reporting and bug verification.

• Involved in Functional Testing and Performance Testing of Siebel Products.

• Understanding the functional requirements of the application.

• Updating the test cases based on the Change Requests/Enhancements.

• Updating the Requirement Traceability Matrix document.

• Responsible for Bug management activities.

• Handled multiple projects at the same time.

• Providing inputs to business owners on requirement lapses during a requirement review meeting

• Coordinating Requirement review to identify bugs before development begins
